🎓 EDUCATION

Software Engineering

Addis Ababa science and technology university

🧠 SKILLS

Languages

C++, Python, JavaScript (ES6+),
Java, Python, HTML5, CSS3

Front-end technologies

React.js, Vite, HTML5, CSS3,
Responsive Web Design, Bootstrap

Back-end technologies

Node.js, Express.js, Django, Django
REST Framework

Databases

MySQL, PostgreSQL, MongoDB,
Firebase

Tools & Platforms

Git, GitHub, Visual Studio Code,
npm, REST APIs, Postman

Core Competencies

- Frontend Development
- Full-Stack Web Development
- Component-Based Architecture
- API Integration
- Responsive UI Design
- Version Control with Git

📁 PROJECTS

Frontend Developer | Academic Projects

Website for robotics club

- Built interactive web applications using HTML, CSS, JavaScript, and React.
- Designed responsive interfaces following modern UI/UX principles.
- Tested and debugged applications to improve performance and usability.

React Developer | Personal Portfolio Project

Self-Directed Project

- Developed a responsive student portfolio using React and Vite.
- Applied CSS Flexbox and Grid to build a mobile-friendly user interface.
- Used Git and GitHub for version control and project management.

E-Commerce Website

- Built a full-stack online shopping platform with product browsing and search.
- Implemented shopping cart, checkout, and order management features.
- Integrated payment gateway APIs for secure transactions.
- Optimized application performance and responsive design.

Student Management System

- Developed a web application for managing student records, courses, and grades.
- Implemented secure user authentication and role-based access control.
- Built a responsive dashboard for administrators, teachers, and students.

- Designed REST APIs for efficient data management.

Task Management Application

- Created a productivity application for organizing daily tasks.
- Implemented task creation, editing, deletion, and deadline reminders.
- Added real-time synchronization using Firebase.
- Designed a clean and user-friendly interface.

Online Learning Platform

- Developed a platform where instructors can upload courses and students can enroll.
- Implemented video lessons, quizzes, and progress tracking.
- Built REST APIs to manage users, courses, and learning materials.
- Designed an intuitive dashboard for both instructors and learners.

Expense Tracker

- Developed a personal finance application to track income and expenses.
- Visualized spending trends using charts and reports.
- Implemented budget planning and monthly summaries.
- Added secure authentication and cloud data storage.

PROFESSIONAL EXPERIENCE

Self-Employed

Frontend Developer | Personal Projects

- Developed responsive web applications using React, JavaScript, HTML, and CSS.
- Built reusable React components and implemented modern UI designs.
- Used Git and GitHub for version control and project management.
- Debugged and optimized applications to improve performance and user experience.
- Consumed REST APIs and managed application state.

AASTU

Software Developer | Academic Projects

- Designed and developed full-stack web applications as part of software engineering coursework.
- Built database-driven applications using MySQL and PostgreSQL.
- Collaborated with classmates using Git for version control.
- Applied object-oriented programming and software engineering principles.
- Tested and maintained applications to ensure reliability and functionality.

Self employed

Freelance Web Developer

- Developed a responsive website based on client requirements.
- Customized layouts and improved the user interface.
- Deployed the website and provided ongoing updates.

LANGUAGES

English

Amharic

SUMMARY

Motivated Software Engineering student with hands-on experience building responsive web applications using React, JavaScript, HTML, CSS, and Python. Passionate about developing user-friendly software and continuously learning new technologies. Strong problem-solving skills and experience using Git and GitHub for version control. Seeking an internship or entry-level software development opportunity to apply and expand my technical skills.
